

Replacement of Twin Cell Beach Outlets — Adjacent to Urangan Pier

PROJECT:

This project provides for the replacement of the twin cell beach outlets situated adjacent to the Urangan Pier. The works also include the removal and replacement of the existing rock revetment wall above the outlets to enable the works to be undertaken.

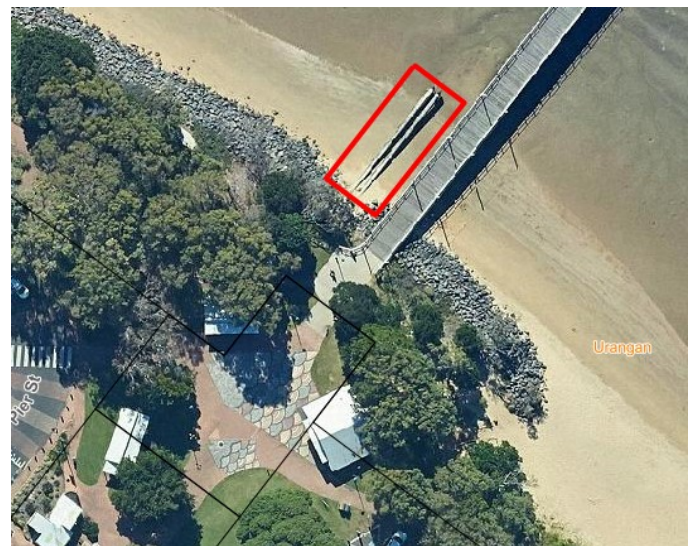

PROJECT ESTIMATE:

\$200,000

PROJECT SCOPE OF WORKS:

- Removal and disposal of existing pipes;
- Installation of new fibreglass pipes including end valves;
- Removal and replacement of existing revetment wall above outlets;
- Top dressing and rehabilitation of any disturbed areas.

The traffic management plan that will be put in place for the duration of the construction period will be developed prior to works commencing. Due to the beach outlet's location, access to the site will be gained through Council's beach access point south of the project along the Esplanade. (see plan attached)

INDICATIVE PROJECT MILESTONES

April 2020	Final Design
May 2020	Tender Period
June /July 2020	Construction Period
August 2020	Project Completion

Note: Project milestones are subject to contract and weather and may change.
