

# The Water Cycle

**Precipitation**  
Water drops fall from the clouds

**Condensation**  
Water vapour changes into water drops

**Evaporation**  
Water vapour rises

**Runoff**  
Water runs along the ground

**Evaporation**  
Water changes into water vapour

**Transpiration**  
Water vapour moves out through leaves

**Evaporation**  
Water changes into water vapour

**Infiltration**  
Water soaks into the ground

**Transpiration**  
Water is drawn up through the tree
