

## Replacement of Timber Decking — Stevenson-Mathison Footbridge (Pier Park)

### PROJECT:

This project provides for the replacement of the existing timber decking of the Stevenson-Mathison Footbridge located in Pier Park, Urangan with recycled plastic decking composite material.

This project was identified for completion as a result of inspections carried out as part of Council’s ongoing asset inspection program.

### PROJECT ESTIMATE:

\$150,000 (this project is funded through the State Government’s COVID Works for Queensland Funding Program)

### PROJECT SCOPE OF WORKS:

The Project scope is as follows:

- Removal of timber decking;
- Installation of replacement decking material.

The pedestrian management plan that will be put in place for the duration of the construction period will be developed prior to works commencing; however, it should be noted that the bridge will be closed during the completion of the deck replacement works, with pedestrians directed to use the Pier Street footpath whilst the works are completed.
