## Replacement of Beach Access Stairs — Urangan and Point Vernon

### PROJECT:

This project provides for the replacement of two sets of beach access stairs at Urangan (UGN 25) and Point Vernon (PTV 20), Hervey Bay.

The beach access stair replacements are being undertaken as a result of inspections carried out as part of Council's ongoing asset inspection program which identified that the existing stairs are nearing the end of their useful lives and require replacement.

The beach shower, dog tap/bowl and memorial bench seat located at the Point Vernon beach access stair location will be temporarily removed whilst the works are being undertaken to allow machinery access. These items will be reinstalled in a suitable location once works are complete.

### PROJECT ESTIMATE:

\$80,000

### PROJECT SCOPE OF WORKS

The Project scope is as follows:

- Demolition and removal of existing beach access stairs;
- Installation of new beach access stairs.

The pedestrian management plans that will be put in place for the duration of the construction period will be developed prior to works commencing.

See larger layout plans attached for more detail (Page 2)

### INDICATIVE PROJECT MILESTONES

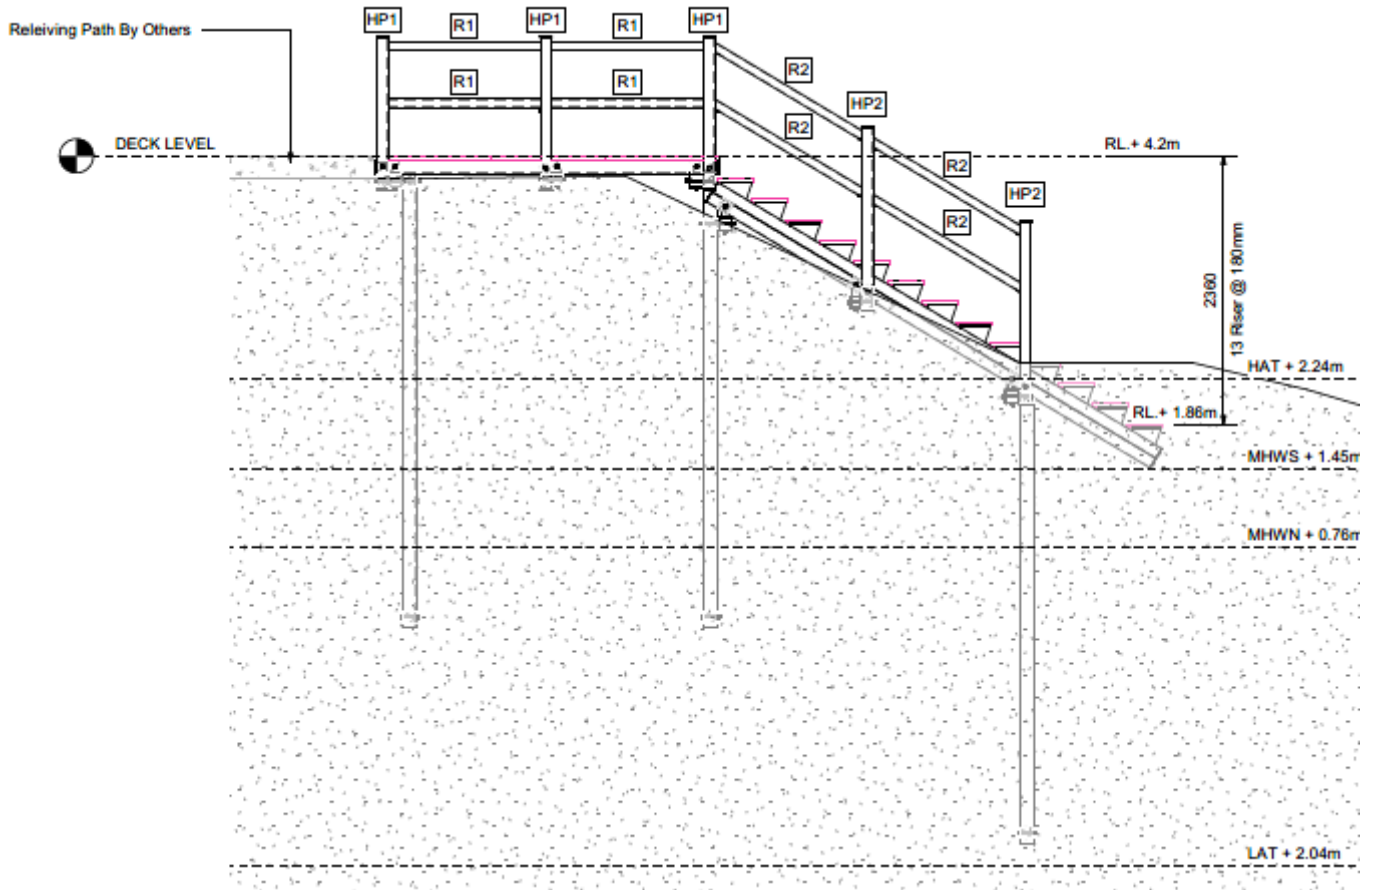

July 2020	Final Design
Nov 2020	Construction Period
Dec 2020	Project Completion

Note: Project milestones are subject to contract and weather and may change.
