## Road Pavement Replacement—Southerden St (Honiton St to Robert St)

### PROJECT:

This project provides for road pavement replacement works in Southerden Street from Honiton Street to Robert Street.

This project was identified for completion as part of Council’s road reconstruction prioritisation process due to the road’s current condition level.

### PROJECT ESTIMATE:

\$495,000

### PROJECT SCOPE OF WORKS:

- Excavation and earthworks;
- Pavement rehabilitation works including new asphalt surfacing;
- Replacement of sections of the existing kerb and channel in the vicinity of 3, 12, 15, 17 and 19 Southerden Street;
- Reconstruction of 6 existing vehicle crossovers at 17, 19 (2 vehicle crossovers to be replaced), 20, 23, and 24 Southerden Street. (reinstatement works will be completed in plain concrete only);
- The reconstruction of the parking bay between 20 and 24 Southerden Street;
- Replacement of 4 kerb ramps;
- Topdressing and turfing of disturbed areas.

The traffic management plan that will be put in place for the duration of the construction period will be developed prior to works commencing.
