## Drainage Works—Lennox Street (Alice St to Ellena St)

### PROJECT:

This project provides for the replacement of the existing stormwater drainage infrastructure on the western side of Lennox Street between Alice Street and Ellena Street.

This project was identified for completion as part of Council’s stormwater drainage prioritisation process and will complete the replacement of drainage infrastructure from Kent Street to Alice Street.

### PROJECT ESTIMATE:

\$1.25M (this project has received \$862,057 in funding under the Australian Government’s Roads to Recovery program)

### PROJECT SCOPE OF WORKS:

- Excavation and earthworks;
- Replacement of existing drainage system with underground stormwater network;
- Pavement rehabilitation works including new asphalt surfacing in disturbed areas only;
- New kerb and channel in disturbed areas only;
- Driveway crossover construction with tie in to existing driveways using same material as existing driveways (plain concrete or asphalt);
- Subsoil drainage works;
- Pavement marking;

Works are proposed to be undertaken as night works (where possible) between the hours of 6.00 p.m. and 6.00 a.m. Lennox St will remain open at all times, with the nightworks to be undertaken under a one lane, one way traffic arrangement with traffic travelling in a southerly direction at night. A cut and cover arrangement will be adopted with Lennox Street being re-opened to two-way traffic during the day.

INDICATIVE PROJECT MILESTONES	
Oct 2021	Final Design
Nov/Jan 2022	Tender Period
March/June 2023	Construction Period
July 2023	Project Completion

Note: Project milestones are subject to contract and weather and may change.
