Road Pavement Rehabilitation—Wharf Street (March St to End)

PROJECT:

This project provides for road pavement rehabilitation and associated table drain works in Wharf Street from March Street to end.

This project was identified for completion as part of Council's road reconstruction prioritisation process due to the road's current condition level.

PROJECT ESTIMATE:

\$90,000

PROJECT SCOPE OF WORKS:

- Road profiling;
- Pavement rehabilitation works including new asphalt surfacing;
- Table drain rehabilitation;
- Topdressing and turfing of disturbed areas.

The traffic management plan that will be put in place for the duration of the construction period will be developed prior to works commencing.
