Hi All,

Some notes on Relish Redlands.

The event was free as they had business support and it was underwritten by the local business community.

The will look at fencing it and making ticketed event and increase the quality of the entertainment as they had lots of local talent but nothing really to attract a crowd, saying that if it was my show I would have had boats running to the site from Brisbane.

I have just spoken to the event manager and she is asking me for my thoughts on it... the suggestion is a quality band but they are looking at 50k extra to the cost of the show with a show like last years whale concert.

Chris we are punching well and truly above our weight in the event space, via your space on council we some how need to encourage the business community to put up to support events.

This lot meet once a month and offer ideas that are semi costed out and planned to Council to try and assist with the making a better community.

For the record one of the events team was a Gold Coast Council staffer and one was from BCC events and both said they had read our events strategy and have started using parting of our document.

We are very much seen as punching well above our weight and budget.

Kind Regards

Darren Everard

Interesting

All emails go to one officer.. who then sorts them ... I remember suggesting this.....

The lady told me that the estimated saving to Council is at least 1 million a year in staff time...

10 X elected members each request looked at, actioned by the Councillor who then annoys staff calls them and then plays around with it.. the say 10 x \$200 equals \$2000 x 10 is 20 k by 52 is a million just about!

If we looked at say Div 4 and his emails his cost would be ?

Kind Regards
