

## Shoulder Maintenance Works – Tinnanbar Boat Ramp

### PROJECT:

This project provides for shoulder maintenance works at the Tinnanbar Boat Ramp.

The completion of this project will improve the asset condition and increase asset longevity to provide for improved community facilities and experiences.

### PROJECT ESTIMATE:

\$80,500 (this project is supported by the Queensland Government’s Fishing Infrastructure Grants Program)

### PROJECT SCOPE OF WORKS:

The project scope is as follows:

- Removal and disposal of existing ramp components;
- Supply and placement of geotextile material;
- Construction of rock shoulder treatments to boat ramp.

Project delivery details are highlighted below:-

- The works will commence in late-August and be completed by mid-September 2023, weather permitting;
- The works will be completed in conjunction with favourable tide times between the hours of 6.00am and 6.00pm;
- Some work may be required to be completed on Saturdays;
- One lane access to the boat ramp will be available for use at all times whilst the works are being completed;
- Whilst it is anticipated that all works will be completed by the September school holiday period, should a further completion period be required, works will resume after the September school holidays.
