

Yarrabine Road Floodway Replacements

PROJECT:

This project provides for the replacement three (3) existing floodways located along Yarrabine Road.

These projects are being undertaken following damage that was sustained to this infrastructure during the 2022 flood events.

PROJECT ESTIMATE:

\$300,000 (these projects are jointly funded by the Australian and Queensland governments under the Disaster Recovery Funding Arrangements)

PROJECT SCOPE OF WORKS:

The project scope for each project is detailed below:

- Construction of side track
- Earthworks
- Flexible pavements
- New concrete floodways including cut off walls
- Batter works
- Signposting
- Line marking

The traffic management plans that will be put in place for the duration of the construction period will be developed prior to works commencing; however, a side track will be constructed to assist with access along Yarrabine Road whilst the floodway construction works are being completed.

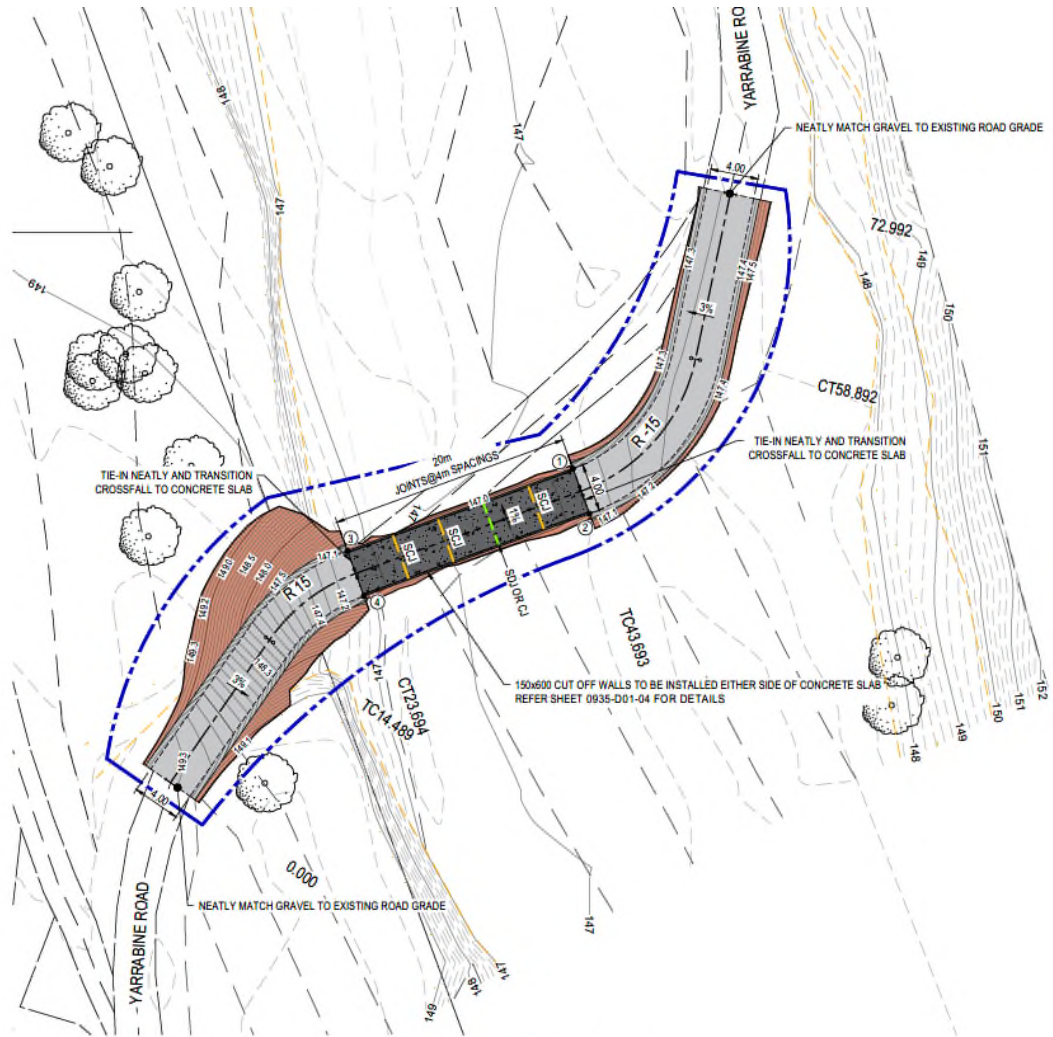

INDICATIVE PROJECT MILESTONES

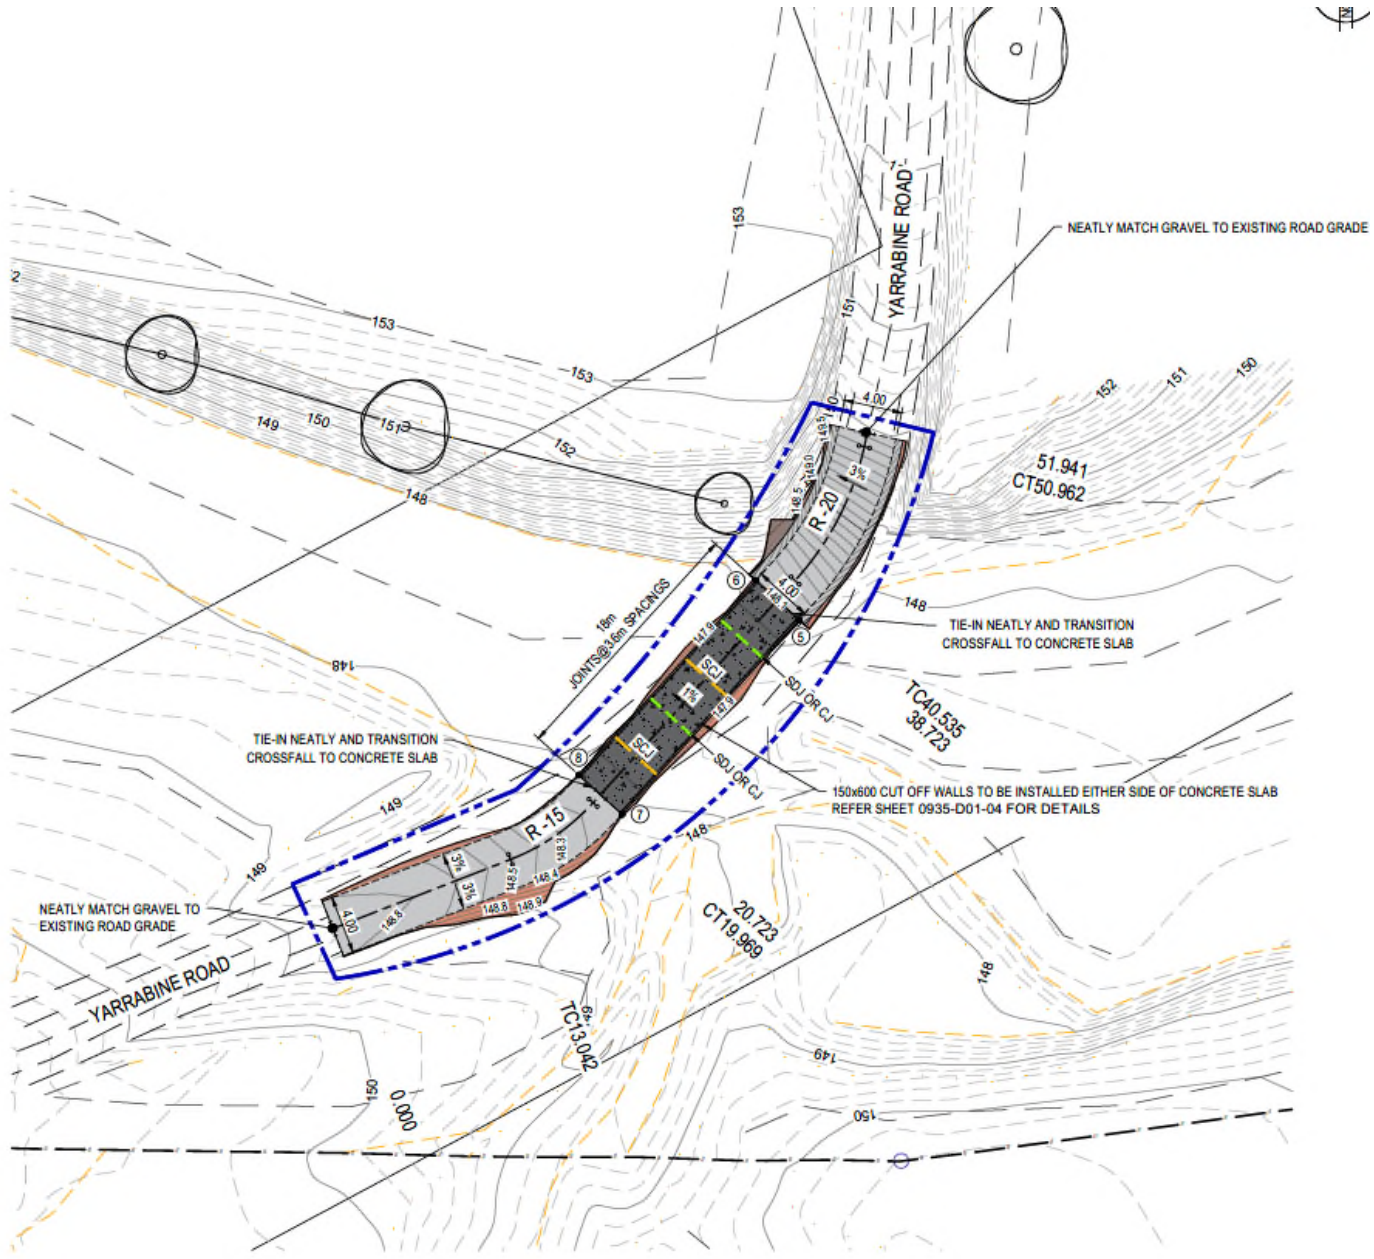

November 2023	Final Design
December 2023	Tender Period
March/April 2024	Construction Period
May 2024	Project Completion

Note: Project milestones are subject to contract and weather and may change.
