

Road Reconstruction – Purser Road (Green Acres Road towards Lower Mountain Road)

PROJECT:

This project provides for road reconstruction works in Purser Road between Green Acres Road and Lower Mountain Road.

The road reconstruction works are being undertaken as a result of Council’s ongoing asset inspection program which identified that the road was showing signs of pavement failure and distress.

PROJECT ESTIMATE:

\$1M

PROJECT SCOPE OF WORKS:

The project scope is as follows:

- Excavation of existing surfacing and pavement;
- Earthworks;
- Installation of new pavement material;
- Pavement widening;
- Construction of new stormwater drainage culvert;
- Construction of new reinforced concrete box culverts for property accesses at 42 Purser Road x 2, 48 Purser Road and 98 Green Acres Road;
- Bitumen resurfacing;
- Pavement marking and signage;
- Reinstatement works.

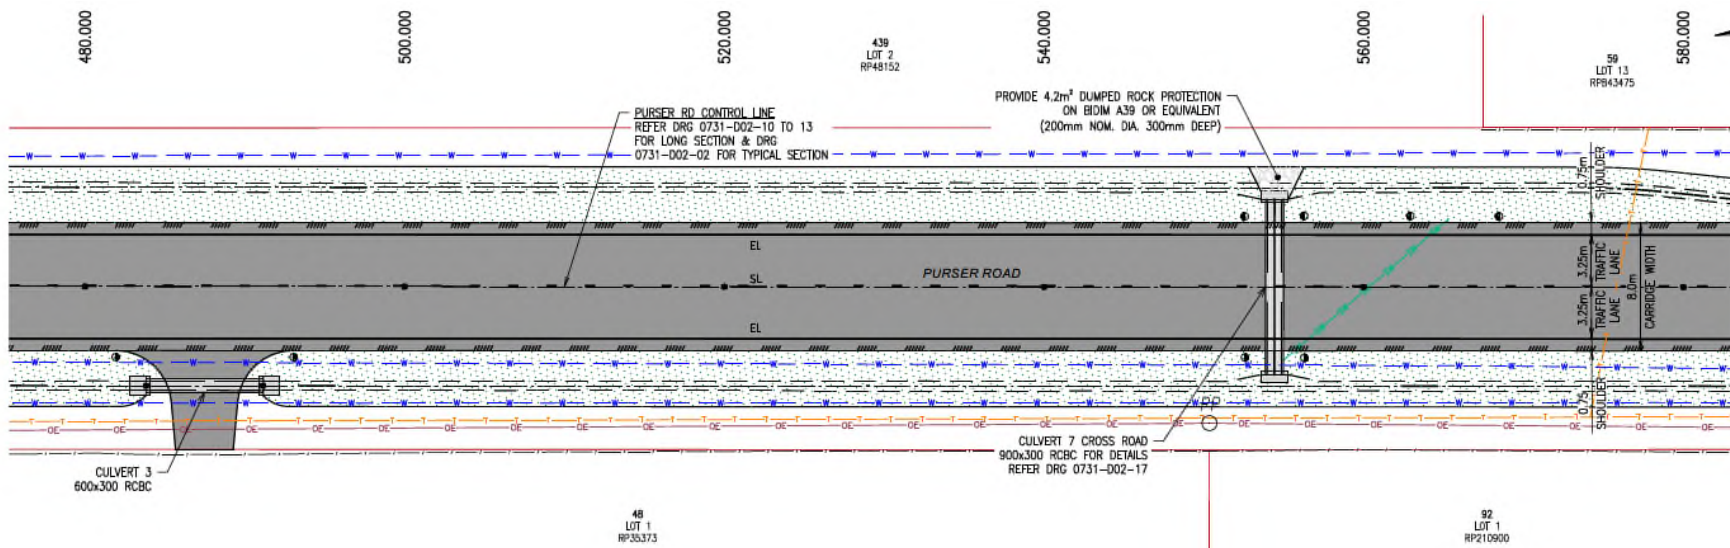

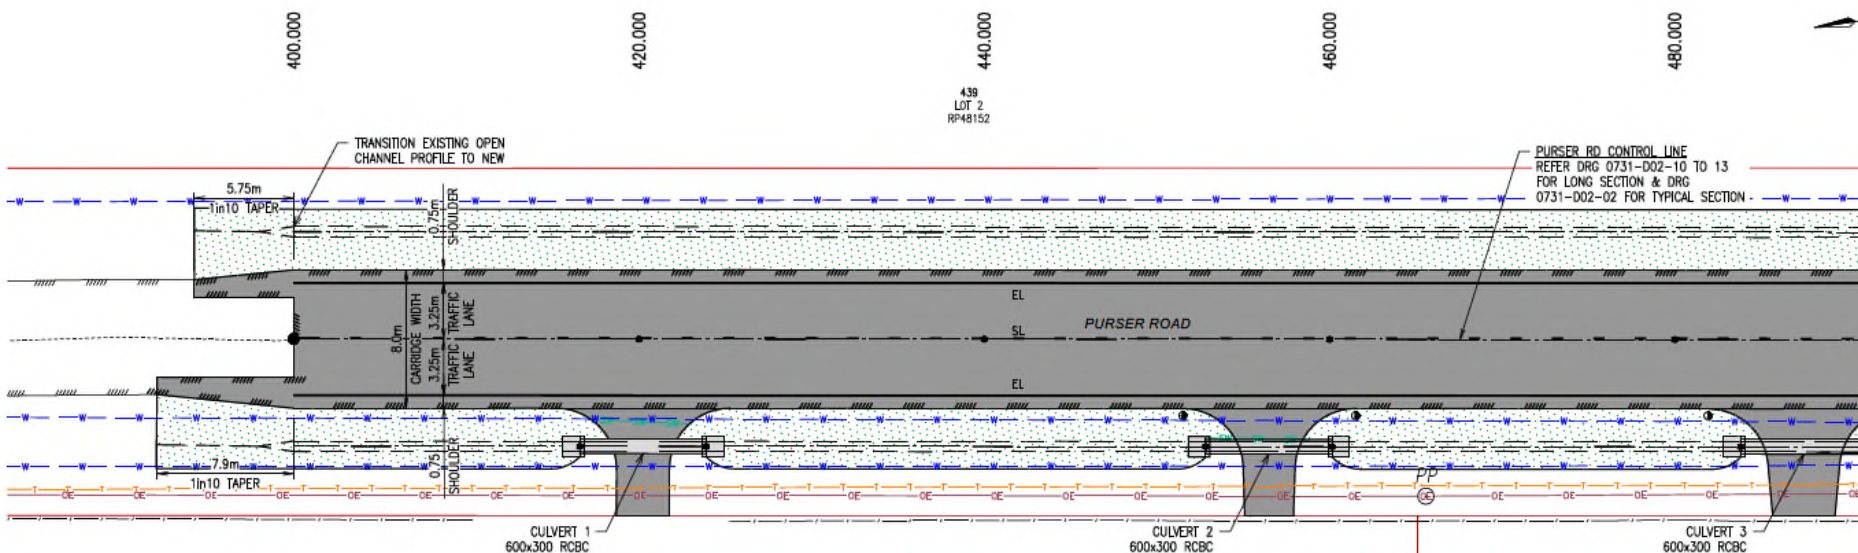

The traffic management plan that will be put in place for the majority of the construction period will allow for a one lane/one way traffic arrangement with traffic travelling in a northerly direction; however, further traffic control will be put in place for Purser Road whilst the culvert crossing works are completed.

INDICATIVE PROJECT MILESTONES

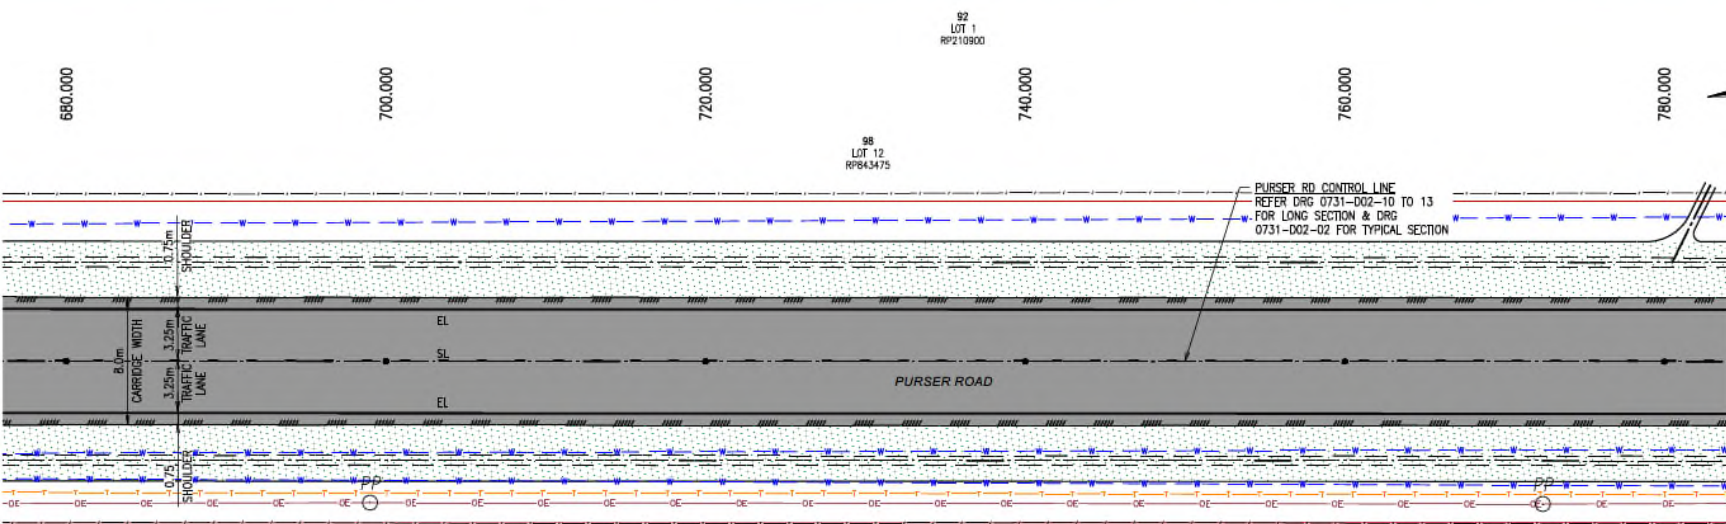

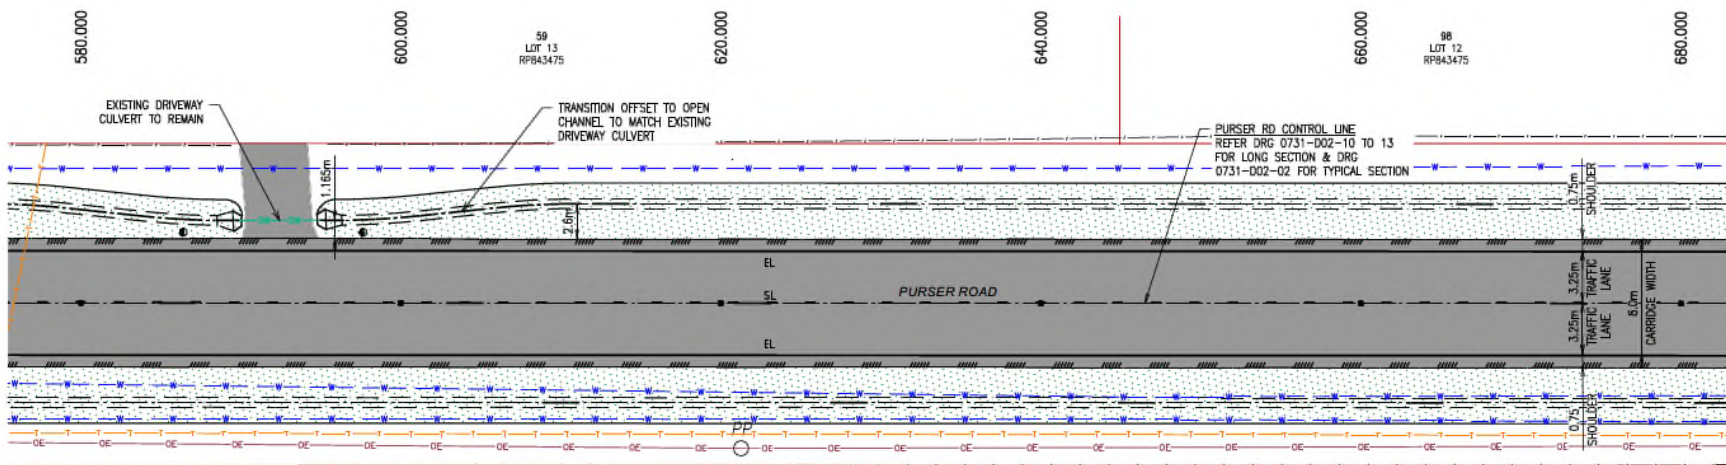

March 2024	Final Design
July/Oct 2024	Construction Period
November 2024	Project Completion
