

# Replacement of Existing Drainage Pit Lids – Chelsea Court, Tinana

## PROJECT:

This project provides for the replacement of all existing drainage pit lids with new keysin road gully units in Chelsea Court, Tinana.

The works are being undertaken as a result of inspections carried out as part of Council’s ongoing asset inspection program which identified that the existing drainage pit lids were damaged and required replacement.

## PROJECT ESTIMATE:

\$200,000

## PROJECT SCOPE OF WORKS:

The project scope is as follows:

- Removal of nineteen (19) existing drainage pit lids;
- Replacement with new keysin road gully units;
- Topdressing and turfing of any disturbed areas

The traffic management plan that will be put in place for the duration of the construction period will allow for a road closure (local traffic only permitted) traffic arrangement.
