

MINUTES

FRASER COAST MARY TO BAY RAIL TRAIL ADVISORY COMMITEE

COUNCIL ADMINISTRATION CENTRE, 77 TAVISTOCK STREET 9 NOVEMBER, 2023 COMMENCING AT 4.00PM

PRESENT:	Cr David Lewis (Chair)
	Cr Phil Truscott
	Tracey Genrich, Manager Community Development & Engagement FCRC
	 Davendra Naidu – Director Infrastructure Services FCRC
	 Mike Allsop (as proxy for Max Voigt) – Fraser Coast Bugs Representative
	 John Williams – Fraser Coast Wildlife Preservation Society Representative
	Steve Case – Fraser Coast Cycling representative
	 David Gleadow – Senior Advisory – Rail Corridor Management – Department of Transport & Main Roads
APOLOGIES	 Max Voigt – Fraser Coast Bugs Representative
	Martin Simons – General Manager FCTE
	Alan Whyborn – community representative
	Andy Riley – community representative
	 Craig England – Manager - Rail Corridor Management - Department of Transport & Main Roads
	 Ken Diehm – Chief Executive Officer FCRC (Guest apology)
	 Keith Parsons – Director Organisational Services FCRC (Guest apology)
GUESTS IN	Gerard Carlyon – Director Strategy, Community & Development FCRC
ATTENDANCE	Kieren Stoneley – FCRC Sport & Recreation Coordinator

AGENDA ITEMS

1. Welcome and Acknowledgement to Country

David welcomed all attendees and delivered an Acknowledgement to Country on behalf of the Advisory Committee.

2. <u>Apologies</u>

A full list of apologies is listed above.

3. <u>Previous Meeting – Action List</u>

The Committee reviewed the Action List of items from previous meetings. The action list has been updated to reflect comments and updates provided at the meeting and is attached in its updated version.

4. <u>Agenda Items</u>

1. Review of Progress – November 2022 Workshop Actions/Priorities

The Committee reviewed the documentation from the November, 2022, workshop and identified areas of progress, generally as follows:-

Plan 2 – Maryborough West – Quarry Road section

- Construction works completed by Council through Queensland Government Works for Queensland program funding;
- Site Visit conducted with representatives of Fraser Coast Bicycle Users Group to review signage for this section. Signage has been ordered and is awaiting installation.

Plan 4 – Colton Siding – Churchill Mine Road

- Fraser Coast Bicycle User Group has completed and opened section of trail from Takura to (just past) Churchill Mine Road;
- Council has been in contact with Colton Coal Mine in relation to their intentions for the section of trail under the mining lease. An update on conversations to date provided by Tracey Genrich under Agenda Item 3 of these minutes.

Plan 5 – Churchill Mine Road – Walligan Trailhead

- Fraser Coast Bicycle User Group has completed clearing and opening of this section;
- Council has provided \$20,000 operational funds to be utilised for maintaining this section;
- Department of Transport and Main Roads has provided \$16,000 to be utilised for 6 bridges within the section.
- Fraser Coast Bicycle User Group has also applied for Gambling Community Benefit funds for additional works with announcement of funding outcome expected by the end of November.
- Some signage installed with other signage currently the subject of discussions with the Signage subgroup.
- A subgroup has also been formed to discuss appropriate crossing options for Stockyard Creek and Black Swamp Creek these works are ongoing.

2. Drone Footage (Cr Phil Truscott)

Cr Truscott suggested that the Committee could consider recommending to Council that some drone footage be filmed to be utilised for future promotion and also could be utilised on the new website.

Steve Case advised that there was a good example of drone footage for a large event recently, that being the Brisbane Cycling Festival.

Action – Tracey Genrich to speak to Council's Communications and Marketing team to enquire if this could be done inhouse.

Action – FCRC Communications team to liaise with Fraser Coast Tourism & Events to determine what drone and trail footage has already been undertaken.

3. Update Colton Coal Mine Discussions (Tracey Genrich)

Tracey Genrich confirmed that she had recently been able to meet with Michael Gray, Director New Colton Pty Ltd, to discuss the mining lease, how it impacts the Rail Trail and to obtain an update on progress of the coal mine.

During the discussion Michael advised that, at this point, it was the suggested of New Colton Pty Ltd that a potential alternative route for the rail trail could be Churchill Mines Road to Perridge Road and then back to Aldershot. Michael also offered to meet with the members of the Rail Trail Advisory Committee to discuss in more detail at a date to be confirmed in late November, 2023.

The Rail Trail Advisory Committee members agreed that they would like the opportunity to meet with Michael as soon as practical.

Action – Tracey Genrich to coordinate a date and time for a meeting of the Rail Trail Advisory Committee and Michael Gray of New Colton Pty Ltd.

4. Update on Walker Street Section Signage Inspection (Davendra Naidu)

Davendra Naidu confirmed that an onsite inspection of signage had been undertaken by Council staff and representatives of Fraser Coast Bicycle User Group.

5. Notes – Stockyard Creek & Black Swamp Creek Crossing Sub-Group Meeting

The Committee noted the notes of the Stockyard Creek & Black Swamp Creek Crossing sub group held on 4 October, 2023.

Davendra Naidu confirmed that his Design team were in the process of having a concept layout drawn up for Black Swamp Creek.

David Gleadow confirmed that an environmental assessment of the area had now been undertaken with a copy of the assessment sent to Council on the day of the Advisory Committee meeting.

Tracey Genrich confirmed that the assessment had been received by email and would be sent onto Davendra Naidu and Robert Hazard for review and comment. A further meeting of the Advisory Committee sub group will be organised as soon as practical to review the information and to discuss further what the implications of the environmental assessment are on crossing options. **Action** – Davendra Naidu & Robert Hazard of Council to review contents of the environmental assessment provided by the Department.

Action – Tracey Genrich to organise a further meeting of the Advisory Committee sub group as soon as practical after internal review.

Action – Davendra Naidu to followup completion of the Concept Design for Black Swamp Creek crossing.

Action – Tracey Genrich to circulate a copy of the assessment documents following the internal Council review by Davendra Naidu & Robert Hazard.

5. <u>General Business</u>

Potential Park Run or Additional Event Usage of Rail Trail

The Committee generally discussed ideas for additional event uses of the Rail Trail, including but not limited to, a park run.

The surface of the trail was raised and Steve Case confirmed that it was likely that, should the surface be able to upgraded in the future, Queensland State Cycling events could be a potential. These events have a potential to be held 4 times a year and attract between 200/400 entrants per event. Steve advised that for these cycling events to occur an injection of funds to upgrade the surface would be imperative.

The Committee agreed that additional uses and events would be beneficial in the future.

6. <u>Next Meeting</u>

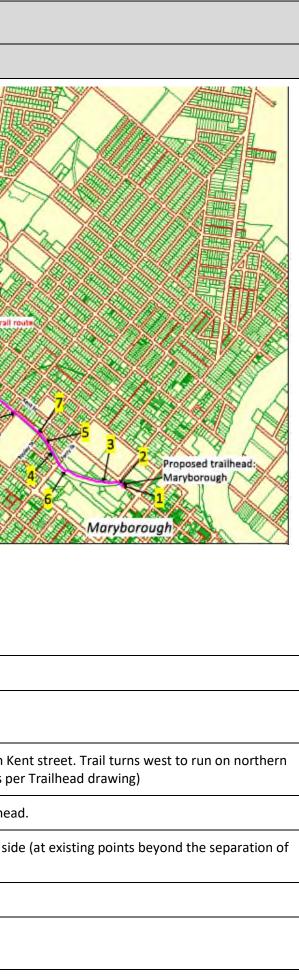

8 February, 2024 – 4pm

The meeting closed at 6.15pm.
